Corporate Profile

TimberWest Forest Corp. is uniquely positioned as the largest owner of private forest lands in western Canada. The Company's 334,000 hectares, providing a sustainable annual harvest of 2.3 million m³ of logs, which can vary in the range of 2.1 million m³ to 2.5 million m³ under our SFI[®] certification, are located on Vancouver Island and predominantly support the growth of Douglas fir forests, a premium species used for structural purposes. Third party auditors have certified that the management of the Company's private forest land conforms to the objectives and performance measures of the American Forest and Paper Association's Sustainable Forestry Initiative (SFI[®]). TimberWest also owns annual Crown harvest rights of 1.3 million m³ of logs and a lumbermill. In addition, approximately 6,000 hectares of the Company's private forest lands have been identified as having greater value as real estate properties and are progressively being made available for higher uses.
